ESTABLISHED 1897

SPRING 1944

In accordance with the Government's request to conserve paper, this catalog is streamlined and considerably smaller than usual. In view of the scarcity of so many items, we were uncertain whether to issue one at all, which accounts for the delay. We decided to do so,—first because we felt it an obligation to offer vegetable seeds, and second because we did not wish at the beginning of our forty-eighth year in business to fail to follow a precedent of many years.

We have appreciated your favors through these years,—favors which have enabled us to make steady progress. In our NEW and LARGER QUARTERS it will be our constant aim to hold the confidence of our friends by supplying merchandise of such quality as to give them good results and at prices as fair to them and ourselves as can be made.

S. S. SKIDELSKY & CO.  
by SIDNEY H. SKIDELL

# CARNATIONS

## Certified Rooted Cuttings

Keep up with the newer varieties and know what they can do for you. It costs less to grow them because they sell first in a poor market and bring premium prices in a good market. It costs less to grow better Carnations. The newer varieties produce larger flowers, more flowers, and healthier plants. Our prices are as low as is consistent with careful selection, skillful propagation, and efficient service.

### NEW INTRODUCTIONS

**MILLER'S YELLOW** • (Miller's Greenhouses)—A beautiful clear yellow seedling with slightly fringed petals. A full flower of excellent keeping qualities; long stiff stem, practically every flower of top quality.

Introduced in January, 1943, it has received the utmost praise from all growers who have had it or seen it, as well as from wholesalers and retailers. Awarded a "Silver Medal" at the New York Florists' Club last February and an "Award of Merit" from the Massachusetts Horticultural Society at the Spring Show in Boston.

**MRS. C. G. WELD** • (George T. Barr)—A maroon seedling of King Cardinal and Pelargonium; does not split; early bloomer; fine keeper. Production is good, plants are bushy and vigorous.

**GENERAL PATTON** • (Elmer B. Lefever)—A large pure white bloom, on a good stem. The flower is exceptionally full, and is the most fragrant Carnation on the market. A free bloomer. Produces plenty of cuttings that root readily. No restrictions of any kind.
